From: Jack Rogers

Re: Investigators; direct expenses

Date: 15 April 2009

The issues surrounding denial of direct expense payments to investigators appear to be resolved for now. While further abuse may require rethinking, I am reinstating the privilege of direct expense billing for investigators.

Beginning 1 July 2009 and thereafter investigators may submit direct expense claims through our usual process. Please remember that only bills of more than \$200 are eligible for direct payment. Multiple billings for the same case will be rejected. If you have any questions, please contact me.
